BIRKBECK TALENT is a specialist recruitment consultancy, adding value to your business by sourcing excellent Birkbeck students and graduates.

Why Recruit Birkbeck Students and Graduates?

“We are impressed by candidates from Birkbeck as they have many qualities not necessarily found in other students. If you can hold down a full time job and study to degree or post graduate degree level at the same time, you must be exceptional.”

Marc Hanson, Head of Commercial Construction
Berwin Leighton Paisner

Our students and graduates are:

- Talented and knowledgeable – Birkbeck is a world-class research and teaching institution and Birkbeck graduates have the highest average graduate salary out of any University in the UK.

- Highly motivated, professional and determined to succeed.

- Available for full-time work, as Birkbeck is London's only specialist provider of evening higher education.

- In-demand by organisations from every sector.

- Equipped with up-to-date knowledge and workplace skills that will exceed your expectations – most of our students have previous work experience and many transferable skills.

- Taken on by leading employers year after year – Join our group of successful employers by accessing the right talent to meet your needs.

“Birkbeck students come from a wide range of backgrounds which is why we are interested in them. Our clients are diverse. Consequently it is good that some of our people have previous experience in other careers, before turning to law. The maturity and different perspectives these students bring can be of great value to Hogan Lovells and our clients.”

Clare Harris, Associate Director, Legal Resourcing
