**BIRKBECK TALENT** is a specialist recruitment consultancy, adding value to your business by sourcing excellent Birkbeck students and graduates.

**Why use Birkbeck Talent?**

**Get Ahead** – recruit students before they become in-demand graduates

Attract the most talented graduates to your business by recruiting them before graduation. You can employ our high-calibre students during their course, because all of our courses are taught in the evening.

**Use this valuable, time-effective Recruitment Solution**

We offer a complete recruitment solution - sourcing and shortlisting students and graduates to meet your recruitment needs.

**Access this Client and Candidate Focused Service**

We are University owned and operated. This means our sole drive is to meet two sets of needs; to provide our students with an excellent service and to find the right candidates to fit within your company environment.

**You can change lives**

Our students come from non-traditional backgrounds, many are the first in their family to access HE or come from low-income households. Your employment opportunities allow students to successfully complete their degree, when they may otherwise not have had the financial resources to do so.

---

**A Diverse Student Body**

- 35% of our students are aged between 20 and 29
- 62% of our students are over 30 years of age
- 42% of Birkbeck undergraduates are BME (black and minority ethnic) compared to 13% across the UK as a whole
- 55% of Birkbeck full time undergraduates are from households with income of less than £25K, compared to a national average of 41%
