Timetable days of teaching 2016/17 - All undergraduate Math/Statistics modules

All modules are taught in both the Autumn and Spring terms
All teaching start in week 2 of both terms, unless otherwise specified
Term dates for the academic year 2016/17 are given below,

Autumn  Monday 3 October 2016 to Friday 16 December 2016
Spring   Monday 9 January 2017 to Friday 24 March 2017
Summer  Monday 24 April 2017 to Friday 7 July 2017

Reading weeks: Autumn term: 7/11/16 - 11/11/16  Spring term:  13/02/17 - 17/02/17
(normally, there are no lectures during Reading Week)
Timetables with room numbers will be placed here, and emailed when available.
Management & Economic modules start in week 1 of each term, and will be placed here and emailed when available.

Monday
- Proof and Structure in Maths
- Real and Complex Variable

Tuesday
- Calculus 1
- Discrete Maths
- Number Theory & Geometry

Wednesday
- Probability and Statistics
- Statistics Theory & Practice
- Statistical Modelling (starts in week 7 of the Autumn term, and week 1 of the Spring term)
- Algebra 2

Thursday
- Calculus 2 (may start in week 1)
- Probability Models and Time Series (starts in week 7 of the Autumn term, and week 1 of the Spring term)

Friday
- Algebra 1
- Computational Mathematics
