Anglo-French-Italian Macroeconomics Workshop

21 & 22 June 2013

Friday, 21 June

- Daniel Laskar (Paris School of Economics): The effect of ambiguity in global game models of financial crises + additional paper.
- Alessandro Flamini (University of Pavia): Industrial transformation, heterogeneity in price-stickiness, and the great moderation.

Saturday, 22 June

- Stephane Auray (Crest-Ensai and ULCO): Unemployment Insurance Take-up Rates in an Equilibrium Search Model.
- Davide Suverato (University of Munich LMU): Export and the Labor Market: a Dynamic Model with on-the-job Search.
- Domenico Massaro (University of Amsterdam): Behavioral Heterogeneity in U.S. Inflation Dynamics.
- Tiziano Ropele (Bank of Italy): The macroeconomics effects of the sovereign debt crisis in the euro area.
- Francois Fontaine (University Nancy 2): A structural job search model with voluntary unemployment insurance.
- Frédéric Dufourt (Aix-Marseille): Large Scale Asset Purchases with segmented mortgage and corporate loan markets.
- Martin Ellison (Oxford): Unconventional government debt purchases as a supplement to conventional monetary policy.
