Programme Rationale & Aims

Main Aims:
There has been a revolution in Electron Microscopy in the past few years culminating in the award of the 2017 Nobel Prize in Chemistry to Richard Henderson, Joachim Frank and Jacques Dubochet. Electron microscopy can now determine the structures of proteins with near atomic resolution, revolutionising the study of large macromolecular machines.

Birkbeck, University of London is one of the leading centres in electron microscopy in the world. The department of Biological Sciences and its forerunner have been teaching Structural Biology via the internet since 1996 and now offer a new course dealing with the latest techniques in Macromolecular Electron Microscopy. This can be taken as a standalone 30 credit CPD course, as this Postgraduate Certificate or as part of the MSc in Structural Molecular Biology.

Entry Criteria

Degree in science, computing or mathematics, or equivalent qualification, or relevant work experience.

Learning Outcomes

On successful completion of this course, students should be able to:

- Describe image formation in the Electron Microscope
- Describe how to prepare samples for Biological Electron Microscopy
- Explain the steps in processing EM image data through to a final 3D atomic model
Year of entry: 2020/21

17 Learning, teaching and assessment methods

All teaching is internet-based. The course material is released in several sections on a dedicated, password-protected website.

You must successfully complete both coursework and the written exam, which may be taken at an examination centre close to you. All modules are examined by a single 3 hour exam. You are required to answer the questions for the modules you sat and spend 1.5 hours per module.

18 Programme Description

This programme consists of the module in Macromolecular Electron Microscopy and one other module from the MSc in Structural Molecular Biology

19 Programme Structure

Part Time 1-year programme

Year 1

<td>Protein Crystallography</td>
<td>30</td>
<td>Optional</td>
</tr>
</tbody>
</table>

Status* CORE – Module must be taken and passed by student; COMPULSORY – Module must be taken, mark can be reviewed at sub-exam board; OPTIONAL – Student can choose to take this module

20 Regulations

- Admissions
  This programme adheres to the College Admissions Policy:

- Credit Transfer
  Accredited Prior Learning will be considered in line with the College Policy on Accredited Prior Learning

- Programme Regulations
  This programme adheres to the College Common Awards Scheme
  [http://www.bbk.ac.uk/registry/policies/regulations](http://www.bbk.ac.uk/registry/policies/regulations)

- Programme Specific Regulations (or not applicable) N/A
## Student Attendance Framework – in brief

### Principle

Consistent and regular student attendance in class (or equivalent) promotes and affords student success. Inconsistent and irregular attendance is less likely to result in student success and is consistent with lower marks and degree classifications being achieved and awarded.

### Attendance expectation

Birkbeck, University of London expects you to consistently attend all timetabled sessions, including lectures, seminars, group and individual tutorials, learning support sessions, workshops, laboratories, field trips, inductions and demonstrations.

### E-Registers

All Birkbeck students are issued with student cards. Students are expected to take them to classes and to assessment venues and to present them to a member of staff if requested. This is for the purpose of identifying Birkbeck students.

## Student Support and Guidance

All Birkbeck students have access to a range of student support services, details can be found on our website here: [http://www.bbk.ac.uk/mybirkbeck/services/facilities](http://www.bbk.ac.uk/mybirkbeck/services/facilities).

## Methods of Enhancing Quality and Standards

The College has rigorous procedures in place for the monitoring and enhancing its educational provision. This includes regular monitoring of programmes drawing on feedback from various sources including external examiner's reports, student feedback, student achievement and progression data. In addition, departments are reviewed every four to five years through the internal review process that includes external input.

For more information please see the Academic Standards and Quality website [http://www.bbk.ac.uk/registry/about-us/operations-and-quality](http://www.bbk.ac.uk/registry/about-us/operations-and-quality).

## Programme Director

Professor Helen Saibil

## Start Date (term/year)

Autumn 2020

## Date approved by TQEC

Autumn 2019

## Date approved by Academic Board

Spring 2019

## Date(s) updated/amended

August 2019 for October 2020
