Programme Rationale & Aims

Main Aims:
Structural biology allows students to understand how macromolecules work at the atomic level of detail. This is important particularly in designing drugs which act at the molecular level to affect macromolecules.

This postgraduate programme provides has been designed for scientists wishing to update their knowledge, or as part of the background studies of research students, particularly those whose undergraduate studies were in a different area.

Distinctive Features:
- An innovative course taught entirely using the internet. You study part-time in your own time, wherever you are in the world. Many of our students have full-time jobs or extensive family responsibilities.
- Taught within the Department of Biological Sciences which, with University College London, is part of the leading research-based Institute of Structural and Molecular Biology. Several of the department’s world-class researchers contribute to the course.
- May be taken as a stand-alone certificate course or as part of our acclaimed internet-based MSc Structural Molecular Biology.

Entry Criteria

Degree in science, computing or mathematics, or equivalent qualification, or relevant work experience.
Learning Outcomes

On successful completion of this course, students should be able to:

- demonstrate detailed knowledge of the theoretical basis of the key experimental techniques in modern structural biology, and appreciation of how they have been used to advance the field
- select the correct methods to use when carrying out structural biology research.

Learning, teaching and assessment methods

All teaching is internet-based. The course material is released in several sections on a dedicated, password-protected website.

Students must successfully complete both coursework and the written exam, which may be taken at an examination centre close to them. All modules are examined by a single 3 hour exam.

Programme Description

This programme consists of any combination of two 30-credit modules from the list shown below.

Regulations

- **Admissions**
  
  This programme adheres to the College Admissions Policy:
  

- **Credit Transfer**
  
  Accredited Prior Learning will be considered in line with the College Policy on Accredited Prior Learning
  
Year of entry: 2020/21

- **Programme Regulations**
  This programme adheres to the College Common Awards Scheme
  [http://www.bbk.ac.uk/registry/policies/regulations](http://www.bbk.ac.uk/registry/policies/regulations)

- **Programme Specific Regulations (or not applicable)**
  N/A

### 21 Student Attendance Framework – in brief

The full version of the ‘Student Attendance Framework’ is available

**Principle**

Consistent and regular student attendance in class (or equivalent) promotes and affords student success. Inconsistent and irregular attendance is less likely to result in student success and is consistent with lower marks and degree classifications being achieved and awarded.

**Attendance expectation**

Birkbeck, University of London expects you to consistently attend all timetabled sessions, including lectures, seminars, group and individual tutorials, learning support sessions, workshops, laboratories, field trips, inductions and demonstrations.

**E-Registers**

All Birkbeck students are issued with student cards. Students are expected to take them to classes and to assessment venues and to present them to a member of staff if requested. This is for the purpose of identifying Birkbeck students.

### 21 Student Support and Guidance

All Birkbeck students have access to a range of student support services, details can be found on our website here: [http://www.bbk.ac.uk/mybirkbeck/services/facilities](http://www.bbk.ac.uk/mybirkbeck/services/facilities).

### 22 Methods of Enhancing Quality and Standards

The College has rigorous procedures in place for the monitoring and enhancing its educational provision. This includes regular monitoring of programmes drawing on feedback from various sources including external examiner's reports, student feedback, student achievement and progression data. In addition, departments are reviewed every four to five years through the internal review process that includes external input.

For more information please see the Academic Standards and Quality website [http://www.bbk.ac.uk/registry/about-us/operations-and-quality](http://www.bbk.ac.uk/registry/about-us/operations-and-quality).

### 23 Programme Director

Professor Nicholas Keep

### 24 Start Date (term/year)

Autumn 1996

### 25 Date approved by TQEC

Spring 1996

### 26 Date approved by Academic Board

Summer 1996

### 27 Date(s) updated/amended

October 2019 for 2020/21
