## Programme Rationale & Aims

The Postgraduate Certificate in Sport Management is designed to provide students with an understanding of key management issues within the sport industry. A range of subjects will be studied including sport economics, sport labour markets, sport marketing and sport events, providing a broad background to the sport industry. It can be studied over one year part-time and is ideal for executives within a variety of sport organisations, media organisations, members of supporters’ organisations, and local government officials with responsibilities in the leisure field, as well as people with a general interest in the sport and media industries. Upon successful completion of the Postgraduate Certificate students can choose to continue studying on one of the MSc programmes in sport management.

## Entry Criteria

Normally at least a second-class honours degree in any subject area from a UK university or a non-UK equivalent. A professional or other qualification obtained by written examinations approved by the College.

Learning, teaching and assessment methods

The teaching and learning strategy on the PG Certificate Sport Management allows the needs of mature students that undertake part-time study to gain up-to-date knowledge which enhances their career prospects. The planning of the programme of study has taken into account the need for evening lectures and seminars to be adequately scheduled; an acceptable workload and its distribution throughout the terms; and the need for accurate information which is in the form of details in the postgraduate handbook, which acts as a guide and which supports independent learning.

The four taught modules that make up the PG Certificate Sport Management are taught over a nine-week period. They comprise three-hour weekly sessions comprising face-to-face lectures and a seminar activity. The learning outcomes for each module and lecture are demonstrable and functional so that students will understand what is expected of them and focus their learning activity. Transparent learning outcomes will also help the tutor to align teaching and assessment with these learning outcomes. The face-to-face lectures provide an overview of the relevant issues, supported by the seminars which involve group work and student presentations, and provide the opportunity for interaction and discussion to encourage deeper learning and a more in-depth exploration of the problems and issues.
The assessment for each module will vary and includes a mix of coursework, exams, marketing reports, group presentations, and a dissertation. All forms of assessment require students to think logically and to adopt an analytical approach to answering the question. It can be argued that the assessment is balanced and all timetabling takes into account the fact that those students with specific needs, have their needs taken into account and they are not disadvantaged in any way. The pass mark is 50% for the combined course work and unseen, formal examination. Each student is allowed one re-sit.
