12	Professional, Statutory Regulatory Body(PSRB) details (or not applicable)	Accredited by ICAEW, ACCA and CIMA				
13	QAA Benchmark Statement	Accounting				
14	Programme Rationale & Aims					
	<p>Main aims for Foundation Year:</p> <ul style="list-style-type: none"> • To enable students to develop the foundational knowledge and skills required for successful completion of a degree in a range of business-related disciplines • Provide support to those students who do not meet the formal entry requirements for direct entry to the degree, but who can demonstrate ability for degree level study <p>Main aims of degree: To enable students to:</p> <ul style="list-style-type: none"> • Develop knowledge and understanding of the theory and practice of accounting • Interpret complex material and relate theory to practice in a number of subject areas in the field of accounting • Develop a range of analytical skills that will enable them to critically appraise and challenge existing accounting practices • Develop the skills required for the preparation of financial statements from the transactions of the reporting entity • Develop an understanding of organisations and how decisions are made in organisations • Acquire quantitative skills that can be applied in the analysis of management and accounting problems • Further develop their communication and interpersonal skills • Encourage lifelong learning 					

15	Entry Criteria
	<p>We welcome applicants without traditional entry qualifications as we base decisions on our own assessment of qualifications, knowledge and previous work experience. We may waive formal entry requirements based on judgement of academic potential.</p> <p>Applicants will normally be expected to have grade C or new grade 4 in GCSE-level English and mathematics. Applicants who do not hold this level of qualification may be required to carry out a skills audit at a selection evening, which comprises English and mathematics. This audit assesses an applicant's potential to cope with, and benefit from, a particular programme of study.</p> <p>UCAS tariff points: 48</p> <p>The UCAS tariff score is applicable where applicants have recently studied a qualification that has a UCAS tariff equivalence.</p>
16	Learning Outcomes
	<p>Learning outcomes for Foundation Year: Successful completion of the Foundation Year will enable students to:</p> <ul style="list-style-type: none"> • Demonstrate knowledge of the foundational concepts and principles associated with business and IT, and an ability to evaluate and interpret these within the relevant areas of study • Present, evaluate and interpret qualitative and quantitative data, in order to develop lines of argument • Make sound judgements in accordance with basic theories and concepts of the subjects under study • Evaluate the appropriateness of different approaches to solving problems related to their proposed area of study and/or work • Communicate the results of their study/work accurately and reliably, and with structured and coherent arguments • Undertake further study at undergraduate level and develop new skills <p>Learning outcomes for the Degree : Successful completion of this programme will develop students' intellectual capacity through arguments and students will acquire:</p> <ul style="list-style-type: none"> • The ability to question existing knowledge and approaches • A critical appreciation of the subject matter • Improved communicative style • More developed interpersonal skills • Quantitative skills that can be applied in the analysis of data and in problem solving • The ability to work on an individual basis and in a small group • Conceptual and practical knowledge that can be used in the workplace • The ability to relate theory and practice • New insights into accounting and finance decision-making • Supervisory and management skills through peer accountability and responsibility

	<ul style="list-style-type: none"> • The ability to take on more challenges which will in turn lead to greater fulfilment • The ability to analyse case studies in business organisations in the context of a range of theoretical literatures and practically apply the knowledge and skills acquired through the programme • The ability to evaluate the quality of empirical evidence presented in both management reports and academic journal articles • The ability to critically assess a body of knowledge and to extend the body of knowledge (via the dissertation/project) • The ability to independently design and conduct research projects • The ability to work in a group and • Good presentation skills

17	<p>Learning, teaching and assessment methods</p> <p>Teaching and Learning Methods for Foundation Year:</p> <p>Students will be taught in interactive, tutorial style classes that support the phased development of knowledge, skills and confidence.</p> <p>Pedagogies in the Foundation Year are designed to give students the space to gain familiarity with the requirements of undergraduate study, and to develop their learning strategies.</p> <p>Teaching and Learning Methods for Degree:</p> <p>The programme of study has been designed so that as well as receiving information in the form of formal lectures, a student can take charge of their own learning by adopting a participative approach to learning. The tutorial/seminar sessions allow students to interact with their peers and develop insights into analysing and interpreting a wide and varied subject matter. Students will develop their intellectual capability through arguments; learn how to question existing knowledge and approaches; develop a critical appreciate of the subject matter; improve their communicative style; and develop their interpersonal skills.</p> <p>This programme is assessed through a range of assessment methods. Modules that emphasise learning of numerical skills lean toward the use of mid-term tests coupled with unseen, formal examination at the end of each term. Mid-term tests are short tests set during the term and are designed to provide early feedback on performance. Other modules use individual or group presentations, written essays, or formal end of term examinations, as sole assessments or in combination.</p>
----	--

18	Programme Description
	The BSc Accounting with Foundation Year is designed to enable those students who wish to take an accounting degree but who do not have the formal qualifications required to develop the necessary skills and capabilities for successful higher education study in a quantitative subject.

19	Programme Structure			
Full Time programme				
Year 0				
Level	Module Code	Module Title	Credits	Status*
3	CASE002S3	Fundamentals of Study: Learning through the Global City	30	Core
3	BUMN170H3	Leadership and Team Building (Level 3)	15	Core
3	BUMN166H3	Mathematics for Business (Level 3)	15	Core
3	BUMN169H3	Managing Change (Level 3)	15	Core
3	BUMN168H3	Strategy and Business Planning (Level 3)	15	Core
3	BUEM120H3	The Modern British Economy (Foundation Year)	15	Core
3	BUMN167H3	Understanding Organisations (Level 3)	15	Core
Year 1				
Level	Module Code	Module Title	Credits	Status*
4	BUMN077H4	Management Studies I	15	Core
4	BUMN078H4	Management Studies II	15	Core
4	BUMN131H4	Introduction to Accounting	15	Core
4	MOMN022H4	Quantitative Methods	15	Core
4	BUMN051H4	Business Information Systems	15	Compulsory
